OBJECTIVE

To obtain a position working with the web development, design, usability or web services fields, which offers a high level of challenge, responsibility, and opportunity for continued professional growth.

EXPERIENCE

Senior Web Developer, SelectMinds New York, NY 10/2005-Present

Lead web developer for creation, deployment as well as maintenance of websites for high-profile clients. Responsibilities include: contributing to internal projects; conducting competitive research and analysis; preparing wireframes, detailed screen designs and functional specifications for implementation of new product features. Initially began as a web developer and promoted to senior status in 2008.

- Projects utilize and require knowledge of CSS, HTML, JavaScript, JSP, and user interface design.

Freelance Web Designer and Developer New Jersey / New York Area 1/2002-Present

Web design and development for personal and professional purposes. Includes web hosting, domain management, administrative experience, interface design consulting and setup of databases.

Web Designer & Developer, Department of Computer Science at The College of New Jersey Ewing, NJ 09/2004-12/2004

Participant in Mentored Research Program to work on the Web Application Development of department website. Project concerned with the design and development of dynamic database-driven website plus backend administrative controls; required extensive use of HTML, JavaScript, CSS, PHP, web-based programming, databases, and design.

Web Design / Programming Intern, Cyberworx Inc. New York, NY 5/2004-8/2004

Designed and developed websites for the main company and 3 of their sub-companies. Provided the backend programming for content management systems & intranets for aforementioned websites; project manager plus web designer & developer for new sub-company. Required knowledge of search engine optimization, editorial skills, PHP/MySQL, HTML, JavaScript and CSS.
